Skills:
- Programming
- Problem Solving
- REST APIs
- Database
- Web Automation
- Data Analysis
- Data Visualization

Technologies:
- Python (OOP, concurrency, async)
- AIOgram (telegram bot)
- Django
- Docker
- SQLite3, PostgreSQL
- Git, GitHub
- Web Scraping & Parsing: requests, httpx, selenium, bs4
- Data Analysis: Pandas, NumPy
- Data Visualization: Matplotlib, Seaborn, Plotly
- Basic Machine Learning
- HTML, TailwindCSS

Languages:
- Uzbek (*native*)
- English (*B2 - upper-intermediate*)

Experience

- **Software Developer, UzTelecom** *Samarkand, Uzbekistan | 6/2024 – present*
  - Developing internal programs/tools, scripts & bots – to automate workflow of manual, tedious, time consuming tasks & processes. Work efficiency increased 12x times due to automation.
  - Developed an automation program that reduced processing time by 97%, transforming daily 2.5 hours manual team workflow (5 people x 30 min) into a less than 3-minute automated process.
  - Working with (internal) RESTful APIs & integrating with them (company's main systems: billing, inventory management, applications management, sales management systems). Ussing mainly: MultiThreadPool & Requests & BeautifulSoup modules for scraping & parsing, additionally used selenium for web/browser automation, and PyWinAuto/PyAutoGUI for (windows) GUI automation tasks.

- **Internship, UzTelecom** *Samarkand, Uzbekistan | 4/2024 – 5/2024*
  - Successfully completed an internship as a programmer.
  - Identified high-impact automation opportunities by developing Proof of Concept prototypes (programs & scripts) to show there is a demand for internal development.
  - Recommendation letter from head of *Public Sales & Service Monitoring* department. *link*

Education & Certifications

- **Digital Economics**, *Bachelor's 2020-2024*
  Samarkand Branch of Tashkent State University of Economics, *sbtsue.uz*
- 100 Days of Code: The Complete Python Pro Bootcamp
  Udemy Python Course, *certificate*
- Data Science & Artificial Intelligence Practicum
  MohirDev Bootcamp, *certificate*
- Gradue of School 21 intensive selection
  School 21 Piscine Program, *21-school.uz*
- AI Programming with Python
  Udacity Nanodegree Program, *certificate*

Projects

- ScrapeX-cli (prev. Auto Checker GUI) – internal automation tool for UzTelecom
- Python Blog Project, *link*, *code*
- Traffic Signs Classification model, *link*, *code*
- Air Ticket Fare Prediction (regression), *link*
- Airline Passenger Satisfaction (classification), *link*
- Pneumonia Image Classification, *link*
